

→ numerous times @ informal inspections as well as to Saredra, Olson, Clark, the maintenance man who comes from the prison with his inmate helpers, & I have even tried praying until I cried. There are always excuses, no complaints in writing go unanswered & disappear, & nothing validates this cruel & inhumane treatment. It is disgusting not to be clean with warm water & what this could mean to the safety & security of a large population of people being "warehoused" together for any length of time. Even claims of "attempting to fix the problem" (where the water flow has been shut off) resulted in colder water, not an improvement. Please validate & remedy this issue according to civil & human rights standards.

# COCHISE COUNTY JAIL

## INMATE REQUEST FORM

TO: <u>CPI CLARK</u>	NAME & POD: <u>HILLS, KRIS</u>
SUBJECT: <u>water temp</u>	BOOKING NUMBER: <u>1644</u>
DATE & TIME RECEIVED: <u>4/16/19 1200</u>	RECEIVED BY: <u>CLARK</u>

NATURE OF REQUEST: To avoid taxing the grievance system (& because my grievance on this matter disappeared) I am now addressing this valid concern (per CLARK & p1cy) by way of Request form. Since I got here on Feb. 25<sup>th</sup> I have yet to take an actual hot shower & even struggled with being sick for a time. I believe even the health Dept. has a 110°-170° standard for hot water, but since it is cold I avoid the shower as long as possible (along with the other women in my pod). Sink water is also not hot. I've tried addressing this
